

StaffGarden is a talent marketplace for clinical professionals. Working in partnership with your organization, StaffGarden strives to deliver innovative and comprehensive solutions to clinical workforce management.

We offer multiple solutions that can directly address clinical staffing needs, including nurse vacancy, registry and per-diem services, direct hire events, and recruitment services.

DIRECT HIRE EVENTS

We work together with your acquisition team and execute a recruitment marketing strategy targeted to your needs. Utilizing the StaffGarden platform, we screen, interview, and schedule talent for the one day event at your facility. We also provide evaluation tools for your interviewers during the event!

TEMP TO PERM

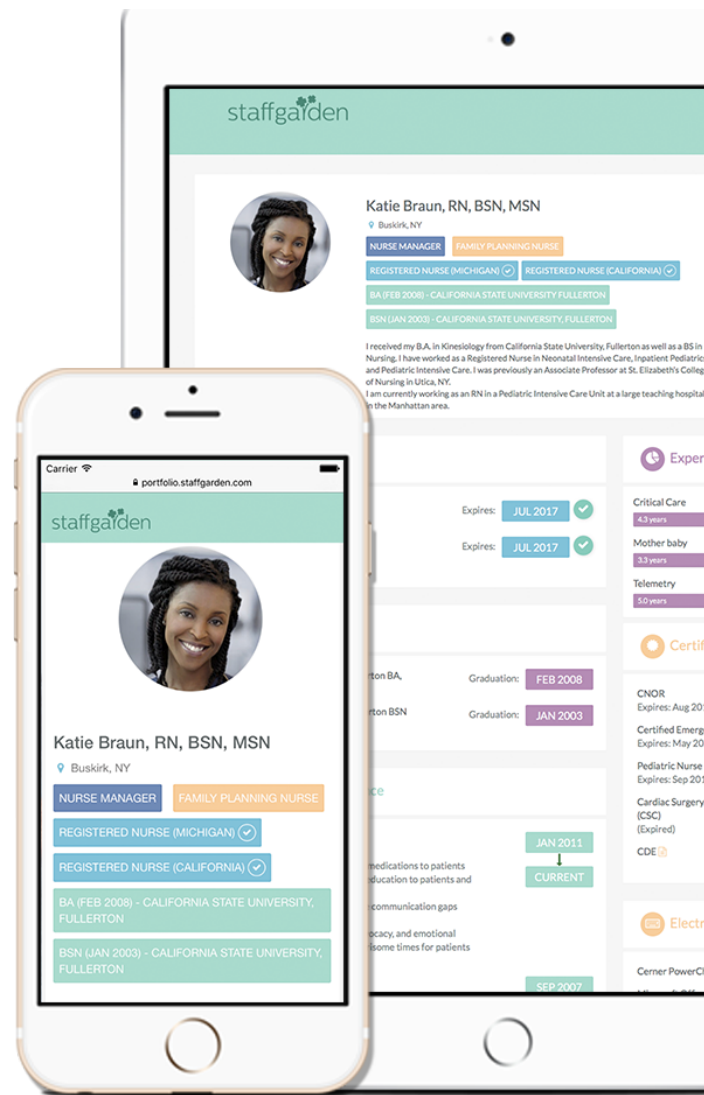

To reduce time-to-fill, nurses acquired through StaffGarden can start in as little as 7 days from an event or extended offer (pending credentialing & background), allowing your organization to see immediate results from the inflow of qualified clinical personnel. The transition from temporary to permanent is efficient, cost-effective, and works with your current onboarding process.

REGISTRY

We have complete registry services in all states, including travel, staff or per-diem for any facility or clinical setting. Our platform allows you to connect directly with talent, eliminating the opacity of agencies. Our costs are not only significantly lower than traditional registry services, they are completely transparent.

RPO

We work directly with you to quickly and cost-effectively fill permanent clinical positions with qualified candidates. We can source, screen, & recruit clinical talent across every clinical specialty from NPs to MDs. We design, build and execute branded campaigns that attract top-tier talent to you all via our innovative ePortfolio/eCV functionality.

We hired 50 nurses in a single day, reduced time-to-fill from 47 to 22 days, and saved over \$379,956 in OT and recruitment costs.

SOLVING THE NURSE VACANCY PUZZLE: GETTING PAST THE INDUSTRY STANDARD

By Alanna Woods, Olivia Smith, and Beth Greenwood, RN

Learn how we saved one institution over **\$379,000** in overtime

Learn how that institution hired **50** nurses in **one day**

Learn about our overall goal of **connecting** quality care and staffing practices to **improve** outcomes within institutions

Learn how nurses **utilize** our online ePortfolio in our hiring process

"I have to tip my hat off to the StaffGarden team for building a purposeful product. Utilizing their intuitive platform allowed our talent acquisition team to achieve better recruiting outcomes more efficiently and consistently. We hired some really great, qualified nursing candidates by saving everyone an incredible amount of time in the earlier stages of the sourcing and screening process."
